SERISS (Synergies for Europe’s Research Infrastructures in the Social Sciences) aims to exploit synergies, foster collaboration and develop shared standards between Europe’s social science infrastructures in order to better equip these infrastructures to play a major role in addressing Europe’s grand societal challenges and ensure that European policymaking is built on a solid base of the highest-quality socio-economic evidence.

The four-year project (2015-19) is a collaboration between the three leading European Research Infrastructures in the social sciences – the European Social Survey (ESS ERIC), the Survey for Health Aging and Retirement in Europe (SHARE ERIC) and the Consortium of European Social Science Data Archives (ESSDA AS) – and organisations representing the Generations and Gender Programme (GGP), European Values Study (EVS) and the WageIndicator Survey.

Work focuses on three key areas: Addressing key challenges for cross-national data collection, breaking down barriers between social science infrastructures and embracing the future of the social sciences.

The CRONOS panel has been developed under Work Package 7 (WP7) – ‘A survey future online’ of the project ‘Synergies for Europe’s Research Infrastructures in the Social Sciences (SERISS)’ and received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 654221. The CRONOS initiative was also supported by ESS ERIC Work Programmes (2015-2017) and (2017-2019).

More information on CRONOS and CRONOS data available for download can be found on the ESS website.

IDNO

Unique identifier

Notes: This identifier corresponds to the IDNO value used in the ESS8 datasets.

CNTRY

Country

Values:
GB  Great Britain
EE  Estonia
SI  Slovenia

TABLET

Panellist received a tablet in order to access the Internet

Values:
1  Yes
2  No

RESP

Recruitment interview: Response to initial panel invitation

Values:
1  Yes
2  Unsure
3  No
5  Other

EMAILP

Recruitment interview: Email provided

Values:
1  Email provided
2  Does not have email
5  Other
-77  Prefers not to give email
-88  Does not know email
-99  Not available

INCEXP

Incentive experiment (GB only)
Values:
1  5 pounds before each survey
2  30 pounds before the first survey
-66  Not applicable
-99  Unknown
