Wave 0 (Welcome survey)
SERISS (Synergies for Europe’s Research Infrastructures in the Social Sciences) aims to exploit synergies, foster collaboration and develop shared standards between Europe’s social science infrastructures in order to better equip these infrastructures to play a major role in addressing Europe’s grand societal challenges and ensure that European policymaking is built on a solid base of the highest-quality socio-economic evidence.

The four-year project (2015-19) is a collaboration between the three leading European Research Infrastructures in the social sciences – the European Social Survey (ESS ERIC), the Survey for Health Aging and Retirement in Europe (SHARE ERIC) and the Consortium of European Social Science Data Archives (CESSDA AS) – and organisations representing the Generations and Gender Programme (GGP), European Values Study (EVS) and the WageIndicator Survey.

Work focuses on three key areas: Addressing key challenges for cross-national data collection, breaking down barriers between social science infrastructures and embracing the future of the social sciences.

The CRONOS panel has been developed under Work Package 7 (WP7) ‘A survey future online’ of the project ‘Synergies for Europe’s Research Infrastructures in the Social Sciences (SERISS)’ and received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 654221. The CRONOS initiative was also supported by ESS ERIC Work Programmes (2015-2017) and (2017-2019).

More information on CRONOS and CRONOS data available for download can be found on the ESS website.

Overview
This document includes the screenshots of the "source English" questionnaire for wave 0 of CRONOS.

This document should be read alongside the Wave 0 Codebook which provides further details, for example, of question routing. The relevant question number as given in the codebook (e.g. W0Q1) is specified before the screenshot of each question.

If respondents attempted to skip a survey question they received a message "We noticed that you did not answer this question. We would be very grateful if you answered to the best of your knowledge, even if you’re not completely sure. You may select “don’t know” or “prefer not to answer” if this is the most appropriate response for you." plus a repeat of the question with “Don’t know” and “prefer not to answer” options visible. An example of a ‘non-response’ screen is shown in Appendix 1.

There are a few questions in Wave 0 where a ‘non-response’ option was not given and where the survey simply skipped to the next item. These are also listed in Appendix 1.

Welcome page

Thank you for joining the [NC ENTER NAME OF THE PANEL IN YOUR COUNTRY]. You can now start participating by completing this Welcome Survey.

Before you begin, we would like to remind you of the key features of this project and of your rights as a participant. [ESS Web] is an important project that aims to inform academics, researchers and policy makers about the opinions and behaviours of different population groups on essential aspects of life in [COUNTRY].

Your participation in this project is voluntary throughout. You are free to choose which surveys and questions you want to fill out. When completing a survey, you will always be able to skip (not answer) any question you do not want to answer.

We will only use your email address to send you invitations to our online surveys. Your contact data (like your name and email address) will not be passed to anyone outside of the [ESS Web] research team, and it will be securely stored. We follow very strict data protection and confidentiality regulations, and we are required by law to guarantee confidentiality to you. All your contact information will be deleted at the end of the project in June 2019.

Your data will only be used to produce research. The answers from all participants will be summarised, and the results will be published in anonymised form using statistical analyses. This means that individual participants cannot be identified. To maximise the benefit that can be derived from this project, we will publish the anonymised data for other registered researchers to use. Confidentiality is strictly protected also in future analyses performed by other researchers. However, your data cannot be used for commercial purposes.

If you change your mind and wish to stop receiving invitations to this project, you can do so by contacting [ADD COUNTRY-SPECIFIC CONTACT DETAILS: NAME, TELEPHONE, EMAIL]. You have the right to access, modify or ask to delete any data you have provided. If, by then, the data have already been used, we will not be able to recall samples from researchers, nor any new knowledge that the data may have helped create.

For more information, or if you have any queries or complaints, please contact [enter name] on the Freephone helpline number [enter phone number].

Your views are very important to us and we hope you will participate in as many surveys as possible.

Please click the “Continue” button to begin the survey.

A household is:

- one person living alone, or
- a group of people (not necessarily related) living at the same address who share cooking facilities and share a living room or sitting room or dining area.

How many rooms are available for use only by this household?

Do NOT count:

- bathrooms
- toilets
- halls or landings
- rooms that can only be used for storage such as cupboards

Count all other rooms, for example:

- kitchens
- living rooms
- utility rooms
- bedrooms
- studies
- conservatories

If two rooms have been converted into one, count them as one room.

Appendix 1: Non-response options

On most questions, when a respondent attempts to skip ahead without answering they are shown two coded non-response options, ‘don’t know’ and ‘prefer not to answer’ (see the example given below).

The following questions did not offer these options and simply moved the survey on to the next question: Q36GB, Q36SI, Q36EE, and Q43.

W0Q1A

Let's start with a few questions about our society.

How would you describe the quality of life in [COUNTRY] compared to 12 months ago?

We noticed that you did not answer this question. We would be very grateful if you answered to the best of your knowledge, even if you're not completely sure. You may select “don't know” or “prefer not to answer” if this is the most appropriate response for you.
