Survey

ESS 2004 Data Protocol

Edition 3, November 30, 2004

NSD

NORWEGIAN SOCIAL SCIENCE DATA SERVICES

Introduction

The object of the ESS 2004 Data Protocol is to offer a comprehensive document with specifications and procedures to be used in the production of national ESS data files. The underlying principle is that resources put into the planning phase of an international survey result in national data of higher quality and standardisation, which in turn will advance the release of the integrated (official ESS 2004) data files from the ESS data archive, http://ess.nsd.uib.no

In general, the Data Protocol gives specifications for the coding of data, the production and delivery of data files and other electronic deliverables. Some of the specifications, for example coding standards, are found elsewhere on the ESS Archive Web Site, http://essdata.nsd.uib.no/.

The Data Protocol defines what the national teams are required to deposit to the data archive. If the content and quality of the electronic deliverables do not adhere to the specifications in the Data Protocol and the Archive Web Site, the archive reserves the right to ask for new deliverables.

Please read all sections of this Data Protocol. The first section (A), describes how the communication between the archive and the data providers is organised.

Section B, "Electronic deliverables", gives an overview of the files and documents the National coordinators are asked to deliver to the archive. Section B does also describe the more practical issues concerning data delivery, such as common identifiers in the files. Please pay special attention to section B5 "Anonymised data", as this is a prerequisite for delivering data to the archive.

Section C of the Data Protocol deals with "principles of variable definitions". This section gives detailed information on the usage of missing values, how multiple responses are dealt with, as well as the rationale behind variable names, labels and categories. Please pay special attention to the coding of "Refusals" in section C1.

The use of international standards is described in part D. To avoid the use of different versions of the same international standards across countries, the national teams are required to use the standards made available from the Archive Web Site.

Country specific variables and administrative variables are listed, explained and specified in section E, whereas section F contains tables of variable names and definitions for all data files. Section F4 is a flowchart documenting the routings in the ESS Core part of the questionnaire.

Section G refers to programmes for applying labels, categories, and formats in SPSS and SAS. The programmes are available from the Archive Web Site.

Specifications for National Technical Summaries are found in section H of the Data Protocol.

The national teams will be informed by e-mail when the Data Protocol and the Archive Web Site are updated.

ESS Data Team at NSD

Content

Updates from previous editions

From Edition 1 to 2

Contact form data

The variables MULTHNUM, NUMHH, HHSELECT and NHHMEM have been added to the variable lists of the Contact data file in sections F3 and F6. The programmes/dictionaries documented in section G have been updated accordingly. Please see

- Section F3. Variable definitions in data file 3, Contact forms (p. 75 and 77)
- F6. Variable list, file 1 - 3 (p. 101 and 102)
- G. Programmes for applying Data Protocol variable names, labels and categories (p. 104)

Download from http://essdata.nsd.uib.no, Step 1, Data definitions and programmes.

A. Procedures for the collaboration between the national teams and NSD

The ESS Archive Web Site

The ESS Archive Web Site at http://essdata.nsd.uib.no/ will be the central meeting place between NSD and the national teams during the data delivery and data processing phases of the project. One purpose of the Archive Web Site is to give all parties in the project easy access to the common set of tools and utilities which are expected to be used in the planning and production of the data files. Another purpose is to make the data processing at NSD as transparent as possible. By using the Archive Web Site, the national teams can control their data delivery, and audit NSD's data processing.

The procedures of data delivery, processing and audit will be as follows:

The NSD team and primary contact persons

The responsibility for the ESS 2004 data at NSD is shared by a team of persons who are trained in the processing of comparative survey data. Each ESS country will be assigned a primary contact person. This person will have the main responsibility for the production of the country's data files. The NSD team has a project email address, essdata@nsd.uib.no. When you send emails to your contact person, please address them to the project email address. In this way you can be sure that your emails are read even if your contact person is out of office.

Data deposit

When electronic deliverables (see section B) are ready for delivery to the archive, the National co-ordinators are kindly asked to use Step 2 "Data deposit" on the Archive Web Site. When the transfer is successfully completed, the NSD team will automatically be notified by the system. The assigned contact person will shortly after get in touch with the national team confirming the delivery.

Data processing

Step 3 "Country data" on the Archive Web site gives the national teams access to the data processing catalogue of their country's data. All programmes, data files and output used in the processing will be available for download, making the archive's work as transparent as possible. The production and cleaning of data will be based on a dialog between NSD and the national teams. Whenever the processing involves decisions not specified in the standard procedures, the national team will be notified and asked for advice. Please be aware that if (parts of) the data files or documentation deviate too much from the specifications in the Data Protocol, the national team might be asked to make a new delivery containing corrected data and/or documentation.

Data validation

When the processing of data is completed, the national team will be notified and asked to download NSD's data processing report and drafts of the country's data files for validation. First when the processing has been approved by the national team can the files be finalised and included in the integrated files.

Please be aware that the draft file from NSD will be a trial dataset made available in confidence for the National co-ordinator, so that preliminary analyses may be undertaken as a means of 'testing' the data in advance of their widespread distribution. The file should be available only to persons who have been notified to the CCT as members of the National co-ordinator's team.

B. Electronic deliverables

The deadline for submitting **all** data and documentation files to the archive is *JANUARY 31st 2005.*

The National co-ordinators are kindly asked to use Step 2 "Data deposit" on the Archive Web Site. All national data files that arrives fully documented and in adherence with the specifications of the Data Protocol, within the deadline, will be included in the first release of the integrated and cumulative data files in August or September 2005. The processing of various country data arriving after the deadline will be executed on a "first come first served basis".

B1. Deliverables to NSD

The electronic deliverables to NSD include data files as well as text files documenting the national survey. When several files are submitted at the same time, please zip them into one file before uploading them to the archive. NSD expects to receive the data files with the Data Protocol variable names, labels and categories (see section G).

Deliverables	Possible file formats	Comment
Data files		
1. Main questionnaire and Supplementary questionnaire, with additional ESS variables. 2. Interviewer questionnaire 3. Contact form	▪ SPSS system file ▪ SPSS portable file ▪ SPSS set up, reading raw data file ▪ SAS system file, Windows ▪ SAS portable file ▪ SAS set up, reading raw data file	See sections F1 - F3 and G in Data Protocol, and Step 1 "Data definitions and programmes" on the ESS Archive Web Site for specifications of files
4. Parent's occupation	▪ Ascii text file	See section F5 for specification of file
Documents		
5. National technical summary	ESS form (recommended) Word Perfect Word Rich text format	See section H in Data protocol and Step 1 - "Technical Summary" on the ESS Archive Web Site
6. Population statistics	Word Perfect Word Rich text format (Ascii text if txt is the only possible output from the CAPI system)	
7. Main questionnaire		
8. Supplementary questionnaire		In all languages fielded in the country
9. Interviewer questionnaire		
10. Contact form		Please collect the show cards in one file (one file for each language fielded in the country)
11. Show cards		
12. Interviewer and fieldwork instructions	Word Perfect Word Rich text format Portable document file	
13. Advance letters and other written information to the respondents		
14. If CAPI: CAPI programmes	Ascii text	

B2. Specifications and delivery of sampling data

The ESS Sampling team is responsible for the specifications, processing and deliveries of the Sampling data file, and the co-operation will be organised directly between the national team and their contact person in the Sampling team.

B3. Common identifiers in data files

The four data files deposited to NSD should be prepared for merging, also with the Sampling data file deposited to the Sampling team. Therefore all files must have common identifiers, i.e. respondent's identification number and country code (see section E4). The national teams may deliver their data as separate files, or as one merged file, depending on what is most convenient in each country. Please leave out the sample data in the deposit to NSD.

B4. Checking data

The national teams are asked to check and edit the data with respect to uniqueness and consistency of identification number(s), wild codes and data consistency. The final wild code checking should be done after the Data Protocol variable names, labels and categories have been applied to the national data files (see section G).

The minimum requirement is that all data verification and editing depending on access to questionnaires or CAPI files must be done prior to delivering the data to the archive.

The National co-ordinators are asked to supply information about the cleaning procedures in the national Technical Summaries (see section H).

B5. Anonymised data

In accordance with data protection regulations in participating countries, only anonymised data will be made available to users. Before depositing data to NSD, each national team is responsible for checking their data with confidentiality in mind. The national teams will be asked to confirm in their National Technical Summary that the data have been anonymised in accordance with their national or the EU regulations on protection of individuals with regard to the processing of personal data (see http://europa.eu.int/comm/internal_market/privacy/law_en.htm).

The checking of anonymity has to be done under the premise that all data files will be merged. Some standard precautions should be made to ensure that the ESS data files embody as much information as possible and still comply with the demands of confidentiality:

Basic precautions
File 1. Data from Main questionnaire and Supplementary questionnaire, with additional variables.
   a. Respondent identification number: if the number makes it possible to identify the respondent, or a geographical area with a small population, encrypt the number before deposit
   b. Region (country-specific variable): the categories of the variable should cover areas of large populations, and be in accordance with the requirements specified in section E3.

File 2. Interviewers' questionnaire
   Precaution a.

c. Interviewer identification number: if the number makes it possible to identify the interviewers or a geographical area with a small population, encrypt the number before deposit

File 3. Contact forms
Precaution a.
Precaution c.

File 4. Sampling data
Precaution a.
d. Identification number of primary and/or secondary sampling units: if the number makes it possible to identify the interviewer(s) or the respondent or a geographical area with a small population, encrypt the number before deposit to the Sampling team.

Further precautions
Even if all individual and geographical identifiers are encrypted, the dataset contains a lot of factual information about the respondent. Combining information about gender, age, household, region of residence, citizenship, country of origin, parents' geographical origin, language, four-digit occupation code, spouse's four-digit occupation code and textual information about parents' occupation might in some cases violate confidentiality. This depends on the population characteristics of the country and its regions, and anonymity must therefore be assessed at country level by each national team.

If anonymisation beyond the basic precautions (a-d) is necessary, it is recommended to use the following procedures in the following order:

e. Rounding
f. Substitution
g. Cell suppression

Please contact NSD in case precautions e, f, or g is necessary.

C. Principles of variable definitions

C1. Missing values

Analysis of item non-response is an important part of quality control of survey items, and consistent use of missing values in the questionnaire and other documentation ensures uniform coding of skips in the interview. The aim is that the ESS data files will contain detailed information on item non-response.

The missing values in the data files are defined in the following way:

Not applicaple: 6, 66, 666 etc., where the respondent has been routed away from the question. This missing value might be coded in the national data files before deposit, but the coding will be overwritten by standardised procedures at NSD.

Refusals: 7, 77, 777 etc., where the respondent has explicitly refused. This should be coded by the interviewers whether they use CAPI or PAPI.

Important notice:

In some questions an explicit refusal code is available. Otherwise, *"Refusal" shall not be included in the scale or the list of answer categories presented to the interviewer in the questionnaire:*

1. Those using CAPI: Place "Refusal" as an option for the interviewer on the top menu of the screen (where many survey organisations also place Don't know).
2. Those using PAPI and manual registration of the questionnaires: Instruct the interviewers to write (an abbreviation of) "Refusal" at the item. Instruct the registration operators to write in the same number of 7s as there are 8s in "Don't know".
3. Those using PAPI and optical scanning of the questionnaires: The questionnaire should have an administrative column with a "refusal" box identifiable for the scanning programme.

Don't know: 8, 88, 888 etc. These codes are almost always available. They can be included in the list of answering options presented to the interviewers, or placed in administrative columns, menus etc., depending on the routines of the survey organisation.

No answer: 9, 99, 999 etc. are codes for missing data not elsewhere explained, for example respondent/interviewer errors and production/system errors. This missing value might be coded in the national data files before deposit, but the coding will be overwritten by standardised procedures at NSD. In administrative variables and interviewer codes, 9, 99, 999 etc. are labelled "Not available".

C2. Multiple responses and missing values

In general, we think of multiple response as the result of a "mark all that apply" question, or "mention all that you think of" in open-ended questions. Examples of multiple response questions are "In which countries have you been on holiday during the last five years?" (open) and "Here is a list of voluntary organisations. Please tell me which of these organisations you are a member of" (closed).

In the ESS 2004 data files, multiple response variables will have the values 0 "Not marked" and 1 "Marked". Each group of multiple response variables will have one or more additional dichotomous variables for missing values.

One example is question F37a, which results in the variables
PDWRKP, EDCTNP, UEMPLAP, UEMPLIP, DSBLDP, RTRDP, CMSRVP, HSWRKP, DNGOTHP, DNGDKP
(Don't know) AND DNGREFP (Refusal). In addition, DNGNAPP (Not applicable) and DNGNAP (No
answer) will be included in the data file. DNGNAPP and DNGNAP will be overwritten by standardised
procedures at NSD, but can either be coded, or assigned the value 0 (zero) or system missing in
the national data files. In countries where CMSRVP is not applicable, the variable should be
assigned the value 0 (zero) or system missing.

If the respondent does not have a partner, all variables will be assigned the value 0, except
DNGNAPP (DOING LAST 7 DAYS, PARTNER: NOT APPLICABLE), which will be assigned the value 1.
Correspondingly, if the respondent refuses to answer the question, DNGREFP should be coded as 1,
the rest 0.

The following questions and variables are defined as multiple responses in the ESS 2004
questionnaires:
C17:
DSCRRCE - DSCRNA
F8a:
PDWRK - DNGNA
F37a:
PDWRKP – DNGNAP
J6:
PREWHP – PRENA

Please ensure that the PROBE/PROMPT/"Code all that apply" instructions to the interviewers are
included in the questionnaire.

C3. Formats
The formats of variables are defined in the tables in section F. All numeric variables in the ESS
2004 data files have the formats Fn.0, i.e. they are of width n and with no decimals. String
variables have the formats An, "n" the number of characters.

The missing values often decide the format. If a routed variable have a scale from 1 to 5, there is
room for "Not applicable" in value 6, and the variable will have the format F1.0. If the scale goes
up to 6, the missing values have to begin at 66, and the format changes to F2.0.

C4. Variable names
The principles of variable definitions are bound by two factors: the limitations in statistical
packages and the concern for user-friendly metadata. These factors limit the length of variable
documentation included in the data files.

The CCT has decided to use *mnemonic* variable names in the data files. The argument is that about
half of the questionnaire (the Core) will be replicated in coming rounds of the ESS, and that we
foresee the replication of rotating modules later on. By using mnemonic variable names, different
data files will contain the same variable names for identical questions, making it easier for the
users as well as the producers of series of cross-sectional surveys.

To ensure consistency in variable names, NSD has set up an internal guideline for abbreviations of frequently used concepts and words in questionnaires. The table below gives one example:

Concept	Abbreviation
Police	PLC
:	:
Trust	TRST/TST

Thus, question B6, "Trust in the police" becomes TRSTPLC.

In many statistical packages, the upper limit of variable names is eight characters. In order to allow for versions of a variable, the limit in ESS is seven characters, leaving space for documenting new versions of the variable with characters (A, B, C, etc.) as suffix. For example, in the variable WRKCTR "Employment contract unlimited or limited duration" one category has been added in Round 2, and the variable name has been changed to WRKCTRA.

C5. Variable labels and categories

The most commonly used statistical packages allow for up to 255 characters in variable labels, but in the ESS data files variable labels will be limited to approximately 70 characters. One reason is that the user should be able to grasp the content "in one glance"; another reason is the formatting of outputs from the statistical packages.

For the same reasons, categories (value labels) are limited to approximately 40 characters.

D. Standards and classifications

The Archive Web Site contains all coding standards and coding frames not documented in the source questionnaire or in the Data Protocol. All verbatim recorded questions *except F53 and F59* (see section E2) have to be post-coded according to international standards found on the Archive Web Site. In addition, some questions with country-specific design and categories have to be recoded into a common ESS coding frame.

The coding frames on the Archive Web Site are compiled for use by the ESS 2004. They will remain fixed for the 2004 survey, and they are to be considered as the *only valid standards* for the ESS 2004. The standard for country codes (ISO 3166-1) and the standard for industry (NACE Rev.1.1) have been revised since 2002.

D1. International standards
International standards have to be used in the post-coding of the following questions:

C19: CTZSHIPA "CITIZENSHIP"
C21: CNTBRTHA "COUNTRY OF BIRTH"
C26: FBRNCNT "COUNTRY OF BIRTH, FATHER"
C28: MBRNCNT "COUNTRY OF BIRTH, MOTHER"
Standard: ISO 3166-1
Format: A2
Comment: The standard has been revised by ISO since 2002. The Åland Islands has been assigned the code AX, and the former transitionally reserved element "CS" for Czechoslovakia has now been assigned to Serbia and Montenegro. The documents for download from the Archive Web Site also includes five transitional code elements added by NSD: "01" for DDR, "02" for USSR, "03" for Czechoslovakia, "04" for Yugoslavia and "05" for East Timor.

C23: LNGHOMA "LANGUAGE MOST OFTEN SPOKEN AT HOME: FIRST MENTIONED"
   LNGHOMB "LANGUAGE MOST OFTEN SPOKEN AT HOME: SECOND MENTIONED"
J7:   INTLNG "INTERVIEW QUESTIONNAIRE LANGUAGE"
Standard: ISO 639-2
Format: A3
Comment: To simplify the coding of question C23, the most common language(s) in a country can be listed for each of the two items, and if necessary be recoded into the three-character ISO 639-2.
   Example: In Slovenia, the answer "Slovenian" can be marked by a tick in the questionnaire, and then registered as "slv" or "1" ("1" later to be recoded to "slv" before deposit).

F22—F24: ISCOCO "OCCUPATION, ISCO88 (COM)"
F39-F41: ISCOCOP "OCCUPATION PARTNER , ISCO88 (COM)"
Standard: ISCO88 (com)
Format: F5.0 (4-digit coding of occupations, missing values having the format F5.0)
Comment: The ESS 2004 questionnaire includes three questions to be used in the post-coding of occupation: title, description of work and qualifications needed (F22-F24 resulting in ISCOCO for respondent, F39-F41 resulting in ISCOCOP for partner).

In addition, F15 and F25 should be used in the post-coding of respondent's occupation. These two questions are particularly helpful in the coding of managers in the ISCO major group 1, distinguishing between large and small enterprises and between industries.

Notes: Please read "A Guide for Users" (Elias and Birch 1994), available from Step 1 "Classifications and standards" on the Archive Web Site, as an introduction. This does also apply to countries already familiar with the ISCO (com). Every country must ensure that the national coding frame and transition table comply with the standard found on the Archive Web Site. The value labels/formats files described in section G can be used to check for compliance with the standard.

The ISCO (com) standard includes codes on 1, 2, 3 and 4 digit levels, while the variables in the data file should have categories on four-digit level only (except Armed forces, code 100). Where no distinction is made below the level of major, sub-major or minor group, a corresponding four-digit category should be achieved by the addition of trailing zeros (see Elias and Birch, p. 13). For example, if occupation is registered as 11 (Legislators and senior officials), the value in the data file should be 1100.

F24: NACER11 "INDUSTRY, NACE REV.1.1"

Standard: NACE Rev.1.1 2-digit version.

Format: F3.0 (2-digit coding of industry, missing values having the format F3.0)

Comment: The NACE standard has been revised since 2002. See Archive Web Site.

D2. ESS 2004 Coding frames

Common ESS coding frames apply to the following questions:

C10: RLGDNM "RELIGION OR DENOMINATION BELONGING TO AT PRESENT"

C12: RLGDNME "RELIGION OR DENOMINATION BELONGING TO IN THE PAST"

Coding frame: ESS

Comment: See Archive Web Site

F6: EDULVL "HIGHEST LEVEL OF EDUCATION"

Coding frame: ESS (ISCED-1997 slightly modified)

Comment: Countries should use the best possible nationally designed question(s) to establish the respondent's highest level of education. The data should then be re-coded into the common coding frame. See Archive Web Site.

Notes: National measurements must when necessary be adjusted to ensure complete coverage of relevant categories in EDULVL.

Please read the UNESCO's Operational Manual (which can be downloaded from the Archive Web Site) before re-coding.

F36: EDULVLP "PARTNER'S HIGHEST LEVEL OF EDUCATION"

F49: EDULVLF "FATHER'S HIGHEST LEVEL OF EDUCATION"

F55: EDULVLM "MOTHER'S HIGHEST LEVEL OF EDUCATION"

Comment: The categories of the questions about highest level of education for respondent's partner and parents in the source questionnaire are identical with the ESS coding frame for the respondent. Countries can either use the frame as it is, or use national categories that can be re-coded into the frame if they prefer so.

E. Country-specific variables, variables from other sources than the questionnaires, and administrative variables

Country-specific variables are marked with the suffix xx in the variable name. Whenever a country-specific variable is included in a national data file, the xx suffix in the variable name should be substituted by the two-character country code of ISO 3166-1.

Table E1. Country codes for countries in ESS 2004 (including possible participants):

Austria	AT	Italy	IT
Belgium	BE	Luxembourg	LU
Czech Republic	CZ	Netherlands	NL
Denmark	DK	Norway	NO
Estonia	EE	Poland	PL
Finland	FI	Portugal	PT
France	FR	Slovakia	SK
Germany	DE	Slovenia	SI
Greece	GR	Spain	ES
Hungary	HU	Sweden	SE
Iceland	IS	Switzerland	CH
Ireland	IE	Ukraine	UA
		United Kingdom	GB

Example: In section F of the Data Protocol and in the SPSS and SAS programmes, the variable name of country-specific highest level of education (question F6) is EDLVxx. The country-specific variables on respondent's highest level of education in Slovakia and Portugal should be renamed to EDLVSK and EDLVPT, respectively.

The categories of the country-specific variables should be in English, but can be documented in the original languages in the National Technical Summary. The National Technical Summary should include a short description of the electoral system, political parties, the education system and properties of the variable REGIONxx (see section H).

E1. Changes in country-specific variables from Round 1 to Round 2

Country-specific variables in Round 2 that differ from the corresponding variables in Round 1, for example by having different categories, must have the suffix Axx.
Examples: If the country-specific variable on highest level of education in Sweden has been changed, the variable name should be EDLVASE.
If the region variable in the Netherlands has been changed, the variable name should be REGIOANL.

Countries using SAS should also change the corresponding format names.

E2. Country-specific variables from the questionnaires

E2.1 Country-specific variables

B12: PRTVTxx "PARTY VOTED FOR IN LAST NATIONAL ELECTION"
    PRTVxx1 "PARTY VOTED FOR IN LAST NATIONAL ELECTION 1"
    PRTVxxN "PARTY VOTED FOR IN LAST NATIONAL ELECTION N"
Please use country-specific categories in English.

These items need to be country-specific due to differences in electoral and party systems between countries. There will be two main groups of countries using different principles of organising the data:

i. Only one single vote registered.
ia. Countries where only one national-level election takes places.
Comment: None
ib. Countries where multiple national-level elections take place.
Comment: Please ask about the last election for the **primary legislative assembly**.
⇒ **Principle 1.** Countries belonging to group i. rename PRTVTxx, and use their national list of parties as categories. PRTVxx1 – PRTVxxN are **not** included in these data files.

ii. Two or more votes registered.
iia. Countries where voters have **more than one vote for the same assembly** (e.g. parallel and mixed member proportional systems; double ballot systems)
Comment: Please ensure that both/all votes are supplied.
iib. Countries using **preferential systems** (e.g. Single Transferable Vote or Alternative Vote).
Comment: Please provide first and second preference vote.
⇒ **Principle 2.** Ranking of votes possible: These countries use the variables PRTVxx1 – PRTVxxN to register the N votes. PRTVTxx is derived from PRTVTxx1 – PRTVxxN, and provided with a label documenting that the variable is derived. The national lists of parties are used as categories.
⇒ **Principle 3.** Ranking of votes **not** possible: Please use the variables PRTVxx1 – PRTVxxN to register the N votes and add their national list of parties as categories. The variable PRTVTxx is **not** included in these data files.

The overview below sums up the principles:

Number of votes registered	Ranking of votes/preference	
	Possible	Not possible
Only one	Principle 1. Only PRTVTxx included	
Two or more	Principle 2. PRTVTxx (derived) and PRTVxx1 – PRTVxxN included	Principle 3. Only PRTVxx1 – PRTVxxN included

B20b: PRTCLxx "WHICH PARTY FEEL CLOSER TO"
B22: PRTMBxx "MEMBER OF WHICH PARTY"
Please use country-specific categories in English.

F6:   EDLVxx "HIGHEST LEVEL OF EDUCATION, [COUNTRY]"

If the national instrument provides additional information compared to the ESS coding frame, please include the country-specific variable on respondent's highest level of education. Only one country-specific variable is allowed in the integrated data file. If more than one country-specific variable is needed, the variables will be made available from a separate country specific file for [COUNTRY]. Please use country-specific categories in English.

All country-specific variables in the ESS main questionnaire and documented in the Data Protocol are to be included in File 1 (see section F1).

E2.2 Country-specific measurements

F32: HINCTNT "HOUSEHOLD'S TOTAL NET INCOME, ALL SOURCES"

Where necessary, the measurement of F32 will be country-specific. The corresponding amounts in national currency, rounding up or down as appropriate should then be inserted in Show card 46. The conversion rate has to be documented in the National Technical Summary, by the formula
€1 = [national currency] x.xx.

The intervals of the categories in CARD 46 are:

CARD 46

YOUR <u>HOUSEHOLD</u> INCOME

Show card code	Approximate WEEKLY	Approximate MONTHLY	Approximate ANNUAL	Data file code
J	Less than €40	Less than €150	Less than €1800	01
R	€40 to under €70	€150 to under €300	€1800 to under €3600	02
C	€70 to under €120	€300 to under €500	€3600 to under €6000	03
M	€120 to under €230	€500 to under €1000	€6000 to under €12000	04
F	€230 to under €350	€1000 to under €1500	€12000 to under €18000	05
S	€350 to under €460	€1500 to under €2000	€18000 to under €24000	06
K	€460 to under €580	€2000 to under €2500	€24000 to under €30000	07
P	€580 to under €690	€2500 to under €3000	€30000 to under €36000	08
D	€690 to under €1150	€3000 to under €5000	€36000 to under €60000	09
H	€1150 to under €1730	€5000 to under €7500	€60000 to under €90000	10
U	€1730 to under €2310	€7500 to under €10000	€90000 to under €120000	11
N	€2310 or more	€10000 or more	€120000 or more	12

F53 and F59. The main questionnaire includes questions about father's and mother's occupation when respondent was 14 years old (F53 and F59). These verbatim recorded questions are not required to be post-coded, but the answers should be registered as they are (in original language) in a separate text file to be archived at NSD (see section F.5).

G91: GRSPAY "Usual gross pay, before deduction for tax/insurance"

G92: NETPAY "Usual net pay, after deduction for tax/insurance"

Where necessary, the amounts in G91 and G92 will be recorded in the national currency. The amounts in national currency have to be converted to Euro in the data file before it is deposited to NSD. The conversion rate has to be documented in the National Technical Summary, by the formula €1 = [national currency] x.xx.

The target variables have the format F7.0 (integer), allowing for amounts up to €6666664. The value 6666665 is reserved for "€6666665 or more". Countries using national currencies will have to apply country-specific formats (Fn.0), which allow for the same maximum amount as countries using Euro. The calculated amounts (from national currency to Euro) should be converted to integers by using integer commands as Trunc (SPSS), Int (SAS), etc.

G94: STDLVL "LEVEL STUDYING AT"

The categories in question G94 are different from the ESS coding frame for education (category 0 omitted and category 7 added). Countries can either use the categories as they are, or use national categories that can be re-coded into the Data Protocol categories if they prefer so.

E3. Country-specific variables from other sources than the questionnaires

REGIONxx "REGION"

The units in REGIONxx should meet the following demands:

1. They should be units where it is possible to attach contextual data (from national records/registers)
2. The net sample of the geographical units must be representative and large enough for statistical analysis. Alternatively, please document how units can be grouped to fulfil this requirement in the National Technical Summary.
3. The population of each unit has to be large enough to ensure anonymity of respondents.

All countries listed in table E1 on page 14, *except Ukraine* are included in the Nomenclature of Territorial Units for Statistics (NUTS), established by Eurostat, see
 http://europa.eu.int/comm/eurostat/ramon/nuts/codelist_en.cfm

Countries included in the NUTS should use a level (or a grouping of a level) from NUTS in REGIONxx.

To be included in File 1 (see section F1)

E4. Respondent identification number and country

IDNO "RESPONDENT'S IDENTIFICATION NUMBER"

Identifies the respondent uniquely in the national data files.

CNTRY "COUNTRY"

The categories of the variable are the two-character country codes in ISO 3166-1. In the Polish data file, for example, the variable will have the value "PL" for all respondents. Please see table E1 on page 14 for the codes of countries (possibly) participating in ESS 2004.

To be included in **all** data files (see section F).

IDNO and **CNTRY** together uniquely identify the respondent in the integrated data files. By sorting integrated data files by CNTRY IDNO (in that order) and thereafter using CNTRY IDNO (in that order) as "key" or "by" variables in match/merge statements, the match/merge will be correct.

E5. Administrative variables

Start and end time of interview, main questionnaire (sections A-G):
INWSHH "START OF INTERVIEW, HOUR"
INWSMM "START OF INTERVIEW, MINUTE"
INWEHH "END OF INTERVIEW, HOUR"
INWEMM "END OF INTERVIEW, MINUTE"
To be included in File 1 (see table F.1o).

Date of face-to-face interview:
INWDD "DAY OF MONTH OF INTERVIEW"
INWMM "MONTH OF INTERVIEW"
INWYR "YEAR OF INTERVIEW"
To be included in File 1 (see table F.1o)

Administration of Supplementary questionnaire:
SPLTADMA "ADMINISTRATION OF SPLIT BALLOT AND MTMM"
The variable will identify in which design the respondent participated.
To be included in File 1 (see table F.1o).

Date of completion of Supplementary questionnaire (sections H and i):
SUPQDD "DAY OF MONTH, SUPPLEMENTARY QUESTIONNAIRE"
SUPQMM "MONTH, SUPPLEMENTARY QUESTIONNAIRE"
SUPQYR "Year, SUPPLEMENTARY QUESTIONNAIRE"
To be included in File 1 (see table F.1o).

F. Variable definitions and flowchart

Tables F1.a – F.3 document the official formats and contents of the variables in the ESS 2004 data files. The tables document the question number, the variable label, format and categories of each variable. The last column has information about skips, coding standards etc. Please use the tables, the flowchart in section F.4 and the source questionnaires simultaneously when setting up national questionnaires and data programmes.

Please bear in mind that the missing values codes 6, 66, 666 etc. and 9, 99, 999 etc. might be coded in the national data files before deposit, but the coding will be overwritten by standardised procedures at NSD.

The same applies to multiple response variables for "not applicable" and "no answer". Thus, the following variables could by default just be assigned the value 0 (zero) or system missing:

C17:
DSCRNAP "DISCRIMINATION OF RESPONDENT'S GROUP: NOT APPLICABLE
DSCRNA "DISCRIMINATION OF RESPONDENT'S GROUP: NO ANSWER"
F8a:
DNGNA "DOING LAST 7 DAYS: NO ANSWER"
F37a:
DNGNAPP "PARTNER DOING LAST 7 DAYS: NOT APPLICABLE"
DNGNAP "PARTNER DOING LAST 7 DAYS: NO ANSWER"
J6:
PRENAP "WHO INTERFERED WITH INTERVIEW NOT APPLICABLE"
PRENA "WHO INTERFERED WITH INTERVIEW NO ANSWER"

If not applicable, **F8a:** CMSRV "DOING LAST 7 DAYS: COMMUNITY OR MILITARY SERVICE " and **F37a:** CMSRVP "PARTNER DOING LAST 7 DAYS: COMMUNITY OR MILITARY SERVICE" should be assigned the value 0 (zero) or system missing.

F5. File 4: Parents' occupation

The main questionnaire includes questions about father's and mother's occupation when the respondent was 14 years old (F53 and F59). These verbatim recorded questions are not required to be post-coded, but the answers should be registered as they are (in original language) in a separate text file to be archived at NSD.

The text file (ascii) can have different formats, but must contain IDNO "RESPONDENT'S IDENTIFICATION NUMBER" and CNTRY "COUNTRY". Two examples of file formats:

Tab delimited format
The file has one record per respondent, IDNO<tab>CNTRY<tab>F53<tab>F59<ctrl-lf>

Record delimited format
The file has three records per respondent, the first record with fixed format
IDNO (Fn.0) CNTRY (A2)<ctrl-lf>F53<ctrl-lf>F59<ctrl-lf>

F6. Variable list, file 1 - 3

File 1.

IDNO	Respondent's identification number
CNTRY	Country
TVTOT	A1|TV watching, total time on average weekday
TVPOL	A2|TV watching, news/politics/current affairs on average weekday
RDTOT	A3|Radio listening, total time on average weekday
RDPOL	A4|Radio listening, news/politics/current affairs on average weekday
NWSPTOT	A5|Newspaper reading, total time on average weekday
NWSPPOL	A6|Newspaper reading, politics/current affairs on average weekday
NETUSE	A7|Personal use of internet/e-mail/www
PPLTRST	A8|Most people can be trusted or you can't be too careful
PPLFAIR	A9|Most people try to take advantage of you, or try to be fair
PPLHLP	A10|Most of the time people helpful or mostly looking out for themselves
POLINTR	B1|How interested in politics
POLCMPL	B2|Politics too complicated to understand
POLDCS	B3|Making mind up about political issues
TRSTPRL	B4|Trust in country's parliament
TRSTLGL	B5|Trust in the legal system
TRSTPLC	B6|Trust in the police
TRSTPLT	B7|Trust in politicians
TRSTPRT	B8|Trust in political parties
TRSTEP	B9|Trust in the European Parliament
TRSTUN	B10|Trust in the United Nations
VOTE	B11|Voted last national election
PRTVTXX	B12|Party voted for in last national election, xx
PRTVXX1	B12|Party voted for in last national election 1, xx
PRTVXX2	B12|Party voted for in last national election 2, xx
CONTPLT	B13|Contacted politician or government official last 12 months
WRKPRTY	B14|Worked in political party or action group last 12 months
WRKORG	B15|Worked in another organisation or association last 12 months
BADGE	B16|Worn or displayed campaign badge/sticker last 12 months
SGNPTIT	B17|Signed petition last 12 months
PBLDMN	B18|Taken part in lawful public demonstration last 12 months
BCTPRD	B19|Boycotted certain products last 12 months
CLSPRTY	B20a|Feel closer to a particular party than all other parties
PRTCLXX	B20b|Which party feel closer to, xx
PRTDGCL	B20c|How close to party
MMBPRTY	B21|Member of political party
PRTMBXX	B22|Member of which party, xx
LRSCALE	B23|Placement on left right scale
STFLIFE	B24|How satisfied with life as a whole
STFECO	B25|How satisfied with present state of economy in country
STFGOV	B26|How satisfied with the national government
STFDEM	B27|How satisfied with the way democracy works in country
STFEDU	B28|State of education in country nowadays
STFHLTH	B29|State of health services in country nowadays
GINCDIF	B30|Government should reduce differences in income levels
FREEHMS	B31|Gays and lesbians free to live life as they whish
PRTYBAN	B32|Ban political parties that wish overthrow democracy
SCNSENV	B33|Modern science can be relied on to solve environmental problems
EUFTF	B34|European Union: European unification go further or gone too far
IMSMETN	B35|Allow many/few immigrants of same race/ethnic group as majority
IMDFETN	B36|Allow many/few immigrants of different race/ethnic group from majority
IMPCNTR	B37|Allow many/few immigrants from poorer countries outside Europe
IMBGECO	B38|Immigration bad or good for country's economy
IMUECLT	B39|Country's cultural life undermined or enriched by immigrants
IMWBCNT	B40|Immigrants make country worse or better place to live
HAPPY	C1|How happy are you
SCLMEET	C2|How often socially meet with friends, relatives or colleagues
INMDISC	C3|Anyone to discuss intimate and personal matters with

SCLACT	C4|Take part in social activities compared to others of same age
CRMVCT	C5|Respondent or household member victim of burglary/assault last 5 years
AESFDRK	C6|Feeling of safety of walking alone in local area after dark
HEALTH	C7|Subjective general health
HLTHHMP	C8|Hampered in daily activities by illness/disability/infirmary/mental problem
RLGBLG	C9|Belonging to particular religion or denomination
RLGDNM	C10|Religion or denomination belonging to at present
RLGBLGE	C11|Ever belonging to particular religion or denomination
RLGDNME	C12|Religion or denomination belonging to in the past
RLGDGR	C13|How religious are you
RLGATND	C14|How often attend religious services apart from special occasions
PRAY	C15|How often pray apart from at religious services
DSCRGRP	C16|Member of a group discriminated against in this country
DSCRRCE	C17|Discrimination of respondent's group: colour or race
DSCRNTN	C17|Discrimination of respondent's group: nationality
DSCRRLG	C17|Discrimination of respondent's group: religion
DSCRLNG	C17|Discrimination of respondent's group: language
DSCRETN	C17|Discrimination of respondent's group: ethnic group
DSCRAGE	C17|Discrimination of respondent's group: age
DSCRGND	C17|Discrimination of respondent's group: gender
DSCRSEX	C17|Discrimination of respondent's group: sexuality
DSCRDSB	C17|Discrimination of respondent's group: disability
DSCROTH	C17|Discrimination of respondent's group: other grounds
DSCRDK	C17|Discrimination of respondent's group: don't know
DSCRREF	C17|Discrimination of respondent's group: refusal
DSCRNAP	C17|Discrimination of respondent's group: not applicable
DSCRNA	C17|Discrimination of respondent's group: no answer
CTZCNTR	C18|Citizen of country
CTZSHIPA	C19|Citizenship
BRNCNTR	C20|Born in country
CNTBRTHA	C21|Country of birth
LIVECNTR	C22|How long ago first came to live in country
LNGHOMA	C23|Language most often spoken at home: first mentioned
LNGHOMB	C23|Language most often spoken at home: second mentioned
BLGETMG	C24|Belong to minority ethnic group in country
FACNTR	C25|Father born in country
FBRNCNT	C26|Country of birth, father
MOCNTR	C27|Mother born in country
MBRNCNT	C28|Country of birth, mother
MDLSWGT	D1|Approve if healthy people use medicines to loose weight
MDHAIR	D2|Approve if healthy people use medicines to reduce hair loss
MDMEMO	D3|Approve if healthy people use medicines to improve memory
MDHAPPY	D4|Approve if healthy people use medicines to feel happier
MDSEXLF	D5|Approve if healthy people use medicines to improve sex life
HLTHERB	D6|Use herbal remedies if health problem, how often
MDSDEFF	D7|When prescribed medicine, how often worry about side effects
PRFMDDC	D8|When health problem, how often prefer medicine prescribed by doctor
DDPRSMD	D9|Did last time doctor prescribed medicine you not had before
USMDPRS	D10|Regularly taking pills or use medication prescribed for you
USMPRSE	D11|Used medicine prescribed for someone else, how often last 5 years
ADVSTHR	D12|Who would you go to first for advise/treatment if very sore throat
PRCSTHR	D12a|Other practitioner go to first for advise/treatment if very sore throat
ADVHACH	D13|Who would you go to first for advise/treatment if serious headache
PRCHACH	D13a|Other practitioner to first for advise/treatment if serious headache
ADVSLEP	D14|Who would go to first for advise/treatment if serious sleeping problem
PRCSLEP	D14a|Other practitioner to first for advise/treatment if serious sleeping problem
ADVBACH	D15|Who would you go to first for advise/treatment if serious backache
PRCBACH	D15a|Other practitioner to first for advise/treatment if serious backache
CHSRGP	D16|Feel that have choice in choosing regular general practitioner/doctor
PRFSMDC	D17|Prefer same doctor for all everyday health problems
TMCNSDC	D18|Consulted doctor/specialist/GP, how many times last 12 months
ILLCURE	D19|Most illnesses cure themselves without having to visit doctor
PPLCURE	D20|People can cure themselves when suffer from illness like common cold

PPRLYDC	D21	People rely too much on doctors rather than themselves to keep healthy
PSMDCPR	D22	When people sure of medicine need, doctor should prescribe it for them
FOLLWDC	D23	It is best to follow doctors' orders
DSPLVPR	D24	Generally feel disappointed when leave doctor without prescription
DCKPTRT	D25	Doctors keep whole truth from patients
DCTREQL	D26	Regular general practitioner/doctor treat patients as equals
DCDISC	D27	Doctors discuss treatment with patient before they decide
PTNRLCQ	D28	Patients are reluctant to ask doctor questions they would like to
DCADMMS	D29	Doctors are willing to admit mistakes to their patients
DCDFCWR	D30	Doctors use words that patients find difficult to understand
CTZHLPO	E1	Citizens should spend some free time helping others
SCBEVTS	E2	Society better off if everyone looked after themselves
CTZCHTX	E3	Citizens should not cheat on taxes
TSTRPRH	E4	Trust plumber/builder/mechanic/other repairer deal honestly with you
TSTFNCH	E5	Trust financial companies/bank/insurers deal honestly with you
TSTPBOH	E6	Trust public officials deal honestly with you
RPROCHG	E7	Plumber/builder/mechanic/repairer overcharged you, how often last 5 years
FODCNCL	E8	You were sold food packed to conceal worse bits, how often last 5 years
BNKFLDL	E9	Bank/insurance company failed to offer best deal, how often last 5 years
SCNDHFL	E10	You were sold things second-hand that proved faulty, how often last 5 years
PBOAFVR	E11	Public official asked favour/bribe for service, how often last 5 years
WRYTRDH	E12	How worried are you of being treated dishonestly
PYAVTXW	E13	Someone paying cash without receipt to avoid VAT or tax, how wrong
SLCNFLW	E14	Someone selling something second-hand and conceal faults, how wrong
FLINSRW	E15	Someone making exaggerated/false insurance claim, how wrong
PBOFVRW	E16	Public official asking favour/bribe in return for service, how wrong
MNYACTH	E17	If you want to make money, you can't always act honestly
OLWMSOP	E18	You should always obey law even if it means missing good opportunities
IGNRLAW	E19	Occasionally alright to ignore law and do what you want
BSNPRFT	E20	Businesses only interested in profit, not improve service/quality
FRMWKTG	E21	Nowadays large firms work together in order to keep prices high
CMPRCTI	E22	Nowadays customer/consumer are in better position to protect interest
FRDBNFT	E23	Get benefits/services not entitled to, how many friends could you ask
KPTCHNG	E24	Kept change from shop assistant/waiter when given too much, last 5 years
PAYAVTX	E25	Paid cash with no receipt to avoid VAT or tax, last 5 years
SLCNSFL	E26	Sold something second-hand and concealed its faults, last 5 years
MUSDOCM	E27	Misused/altered card/document to pretend eligible, last 5 years
FLINSR	E28	Made an exaggeration or false insurance claim, last 5 years
PBOFVR	E29	Offered favour/bribe to public official for service, last 5 years
FLGVBNF	E30	Falsely claim government benefit: social security or other, last 5 years
HHMMB	F1	Number of people living regularly as member of household
GNDR	F2	Gender
GNDR2	F2	Gender of second person in household
GNDR3	F2	Gender of third person in household
GNDR4	F2	Gender of fourth person in household
GNDR5	F2	Gender of fifth person in household
GNDR6	F2	Gender of sixth person in household

WKHTOTP	F48|Hours normally worked a week in main job overtime included, partner
EDULVLF	F49|Father's highest level of education
EMPRF14	F50|Father's employment status when respondent 14
EMPLNOF	F51|Number of employees father had
JBSPVF	F52|Father responsible for supervising other employees
OCCF14A	F54|Father's occupation when respondent 14
EDULVLM	F55|Mother's highest level of education
EMPRM14	F56|Mother's employment status when respondent 14
EMPLNOM	F57|Number of employees mother had
JBSPVM	F58|Mother responsible for supervising other employees
OCCM14A	F60|Mother's occupation when respondent 14
ATNCRSE	F61|Improve knowledge/skills: course/lecture/conference, last 12 months
MARITAL	F62|Legal marital status
LVGHW	F63|Currently living with husband/wife
LVGOPTN	F64|Currently living with another partner than husband/wife
LVGPTN	F65|Currently living with partner
LVGPTNE	F66|Ever lived with a partner without being married
ICMSW	F67|Interviewer code, married/separated/widowed
DVRCDEV	F68|Ever been divorced
CHLDHM	F69|Children living at home or not at F4
CHLDHHE	F70|Ever had children living in household
MOALV	F70a|Mother still alive
FAALV	F70b|Father still alive
GDSPRT	G1|Have felt cheerful and in good spirits last 2 weeks
CLMRLX	G2|Have felt calm and relaxed last 2 weeks
ACTVGRS	G3|Have felt active and vigorous last 2 weeks
FRSHRST	G4|Have woken up feeling fresh and rested last 2 weeks
LFINTR	G5|Daily life been filled with things that interest me last 2 weeks
WMCPWRK	G6|Woman should be prepared to cut down on paid work for sake of family
MNRSPHM	G7|Men should take as much responsibility as women for home and children
MNRGTJB	G8|Men should have more right to job than women when jobs are scarce
PRNTGHR	G9|Children in home, parents should stay together even if don't get along
PRRFMLY	G10|A person's family should be main priority in life
ICPTN	G11|Interviewer code, lives with husband/wife/partner
YRLVPTN	G12|Which year first start living in same household as partner
DSGRHWK	G13|How often disagree with partner about how to divide housework
DSGRMNY	G14|How often disagree with partner about money
DSGRPWK	G15|How often disagree with partner about time spent on paid work
GWHHPRC	G16|Who generally get their way on occasional expensive household purchases
GWDVHWK	G17|Who generally get their way on how to divide housework

ICPTNWK	G18|Interviewer code, respondent's partner is working
WKENGTP	G19|Partner's work involve working evenings/nights, how often
WKOVTMP	G20|Partner's work involve working overtime at short notice, how often
PTNWKWE	G21|Partner's work involve working at weekends, how often
HWKTWD1	G22|Total time people in home spend on housework, hours typical weekday 1
HWKPWD1	G23|Part you spend of total time housework on typical weekday 1
HWKPWDP	G24|Part your partner spend of total time housework on typical weekday
HWKTWE1	G25|Total time people in home spend on housework, hours typical weekend 1
HWKPWE1	G26|Part you spend of total time housework a typical weekend 1
HWKPWEP	G27|Part your partner spend of total time housework a typical weekend
ICHWK1	G28|Interviewer code, respondent does no/nearly no housework 1
HWKTWD2	G29|Total time people in home spend on housework, hours typical weekday 2
HWKPWD2	G30|Part you spend of total time housework on typical weekday 2
HWKTWE2	G31|Total time people in home spend on housework, hours typical weekend 2
HWKPWE2	G32|Part you spend of total time housework a typical weekend 2
ICHWK2	G33|Interviewer code, respondent does no/nearly no housework 2
TNGDOHM	G34|Many things to do at home, often run out of time before I get all done
HWKMONO	G35|Find my housework monotonous
CHDOHWK	G36|Can choose myself when and how to do housework
HWKSTRS	G37|Find my housework stressful
HMEQPHW	G38|How well is home equipped for housework
LKAFOHH	G39|Look after others in household, children/ill/disabled/elderly
UPDHLRL	G40|Give unpaid house/care help to relative outside household, not own child
UPDHLRP	G41|Can count on unpaid house/care help from anyone outside household
CLD12HH	G42|Own children/adopted/foster/partner's, aged 12 or under live with you
CLDCROT	G43|Care of youngest child in household, other than yourself/partner
CLDCRMR	G44|Would you ideally like more or less childcare in present situation
CLDNHH	G45|Children/adopted/foster/partner's of any age not living in household
CLDNHHN	G46|Number of children not living in household
ICCLDNH	G47|Interviewer code, respondent has children not living in household
CLDNHHG	G48|Child not living in household, son or daughter
CLNHHYB	G49|Year of birth child not living in household
CLNHHBO	G50|Year of birth of oldest child not living in household
CLNHHBY	G51|Year of birth of youngest child not living in household
CLDNHHD	G52|Number of daughters not living in household
CLFNCSP	G53|Your financial support to children not living in household
CLHWKSP	G54|Your everyday housework/care support to grown up children not in household
CLFNCRC	G55|Financial support you receive from grown up children not in household
CLHWKRC	G56|Everyday housework/care you receive from grown children not in household
ICB1958	G57|Interviewer code, respondent born after 1958
PLNCHLD	G58|Plan having child within next 3 years
ICMNAC	G59|Interviewer code, main activity
ICEMPL	G60|Interviewer code, employee
JBCOEDU	G61|Would someone applying for your job need education beyond compulsory
JBEDYRS	G62|Years of education beyond compulsory needed by applicant for your job
JBLRN	G63|Somebody with right qualification, how long to learn to do your job well
VRTYWRK	G64|Current job: variety in work
JBRQLRN	G65|Current job: job requires learning new things
JBSCR	G66|Current job: job is secure
WGDPEFT	G67|Current job: wage/salary depends on effort put into work
HLPCOWK	G68|Current job: can get support/help from co-workers when needed
DCSFWRK	G69|Current job: can decide time start/finish work
HLTHRWK	G70|Current job: health/safety at risk because of work
WRKHRD	G71|Current job: job requires work very hard
NEVDNJB	G72|Current job: never enough time to get everything done in job
OPRTAD	G73|Current job: good opportunities for advancement
NBSRSP	G74|Number of people immediate supervisor/boss responsible for
BSMW	G75|Immediate supervisor/boss, man or woman
PPWWKP	G75a|Proportion of women at workplace
YRCREMP	G76|Year first started working for current employer
TRNDNJB	G77|Would turn down job with higher pay to stay with organisation work for
WRKSPV	G78|My work closely supervised
SMBTJOBA	G79|Get a similar or better job with another employer

RPLJBDE	G80|How difficult/easy for employer to replace you if you left
TMTOWRK	G81|Time usually take to get to work, minutes on normal weekday
WRKENGT	G82|Work involve working evenings/nights, how often
WKOVRTM	G83|Work involve having to work overtime at short notice, how often
WRKWE	G84|Work involve working at weekends, how often
WRYWPRB	G85|Worry about work problems when not working, how often
TRDAWRK	G86|Too tired after work to enjoy things like do at home, how often
JBPRTFP	G87|Job prevents you from giving time to partner/family, how often
ICNOPFM	G88|Interviewer code, don't have partner/family
PFMFDJB	G89|Partner/family fed up with pressure of your job, how often
DFCNSWK	G90|Difficult concentrate on work because of family responsibilities
ICEMPLR	G90a|Interviewer code, employee
GRSPAY	G91|Usual gross pay in Euros, before deduction for tax/insurance
NETPAY	G92|Usual net pay in Euros, after deduction for tax/insurance
PAYPRD	G93|How long period pay cover
STDLVL	G94|Level studying at
PRMPLS	G95|Study place: premises pleasant
QUCLSS	G96|Study place: usually peace/quiet during classes/lectures
TCHTRUF	G97|Study place: there are teachers who treat me badly or unfairly
STDTRUF	G98|Study place: there are students who treat me badly or unfairly
TCHINTS	G99|Study place: teachers interested in students
TCHLCRT	G100|Study place: when criticise something teachers listen to what I say
STDASK	G101|Study place: there are students in class/course I can ask/discuss with
STPVTFM	G102|Studies prevent from time with family as would like to
FMPVTST	G103|Family responsibilities prevent from time on studies as would like to
TCHLP	G104|Get help you need from teachers about course
STDHRSW	G105|Hours you spend studying, how many an average term-time week
STDMCDO	G106|Feel you have much to do in studies
CRSPCE	G107|Find pace of course slow/fast
RTRYR	G108|Year of retirement
WNTRTR	G109|Wanted to retire or preferred to continue paid work, year of retirement
ICB1934	G110|Interviewer code, respondent born after 1934
IPJBSCR	G111|Important if choosing job: secure job
IPJBHIN	G112|Important if choosing job: high income
IPJBPRM	G113|Important if choosing job: good promotion opportunities
IPJBINI	G114|Important if choosing job: job enabled you to use own initiative
IPJBWFM	G115|Important if choosing job: job allowed you to combine work/family
WKHSCH	G116|How many hours would choose to work weekly
FSTJBYR	G117|Year started working in first job
YRSPDWK	G118|Total number of years in full- or part-time work
ICGNDR	G119|Interviewer code, gender
ICCHLD	G120|Interviewer code, has son/daughter
FLTHMCC	G121|Total time spent full-time at home caring for your children
FTHCNCR	G122|Full-time home caring for children negative consequences for career
PTMHMCC	G123|Total time part-time work rather than full-time caring for children
PTHCNCR	G124|Part-time work rather than full-time negative consequences for career
IPCRTIV	Ha|Important to think new ideas and being creative
IMPRICH	Hb|Important to be rich, have money and expensive things
IPEQOPT	Hc|Important that people are treated equally and have equal opportunities
IPSHABT	Hd|Important to show abilities and be admired
IMPSAFE	He|Important to live in secure and safe surroundings
IMPDIFF	Hf|Important to try new and different things in life
IPFRULE	Hg|Important to do what is told and follow rules
IPUDRST	Hh|Important to understand different people
IPMODST	Hi|Important to be humble and modest, not draw attention
IPGDTIM	Hj|Important to have a good time
IMPFREE	Hk|Important to make own decisions and be free
IPHLPPL	Hl|Important to help people and care for others well-being
IPSUCES	Hm|Important to be successful and that people recognice achievements
IPSTRGV	Hn|Important that government is strong and ensures safety
IPADVNT	Ho|Important to seek adventures and have an exiting life
IPBHPRP	Hp|Important to behave properly
IPRSPOT	Hq|Important to get respect from others

IPLYLFR	Hr|Important to be loyal to friends and devote to people close
IMPENV	Hs|Important to care for nature and environment
IMPTRAD	Ht|Important to follow traditions and customs
IMPFUN	Hu|Important to seek fun and things that give pleasure
TESTA1	i1|Currently living with spouse/partner
TESTA2	i2|Total time people in home spend on housework, hours typical weekday
TESTA3	i3|Hours you spend of total time housework on typical weekday
TESTA4	i4|Hours partner spend of total time housework on typical weekday
TESTA5	i5|Doctors rarely keep whole truth from patients
TESTA6	i6|General practitioner/doctor rarely treat patients as equals
TESTA7	i7|Doctors rarely discuss treatment with patients before they decide"
TESTA8	i8|Woman should not have to cut down on paid work for sake of family
TESTA9	i9|Women should take more responsibility for home and children than men
TESTA10	i10|Women should have same right to job as men when jobs are scarce
TESTA11	i11|How satisfied with present state of economy in country
TESTA12	i12|How satisfied with the national government
TESTA13	i13|How satisfied with the way democracy works in country
TESTA14	i14|Currently living with spouse/partner
TESTA15	i15|Total time people in home spend on housework, hours typical weekday
TESTA16	i16|Percentage you spend of total time housework on typical weekday
TESTA17	i17|Percentage partner spend of total time housework on typical weekday"
TESTA18	i18|Currently in paid work
TESTA19	i19|Current job: work varied or not
TESTA20	i20|Current job: secure or not
TESTA21	i21|Current job: work put your health/safety at risk or not
TESTA22	i22|Woman cut down on paid work for sake of family: your opinion
TESTA23	i23|Men take as much responsibility for home/children as women: your opinion
TESTA24	i24|Men more right to job than women when jobs are scarce: your opinion
TESTA25	i25|Trust in country's parliament
TESTA26	i26|Trust in the legal system
TESTA27	i27|Trust in politicians
TESTA28	i28|Doctors keep whole truth from patients
TESTA29	i29|General practitioner/doctor treat patients as equals
TESTA30	i30|Doctors discuss treatment with patients before they decide
TESTA31	i31|Currently in paid work
TESTA32	i32|Work how varied
TESTA33	i33|Job how secure
TESTA34	i34|How much your health/safety at risk from your work
TESTA35	i35|How satisfied with present state of economy in country
TESTA36	i36|How satisfied with the national government
TESTA37	i37|How satisfied with the way democracy works in country
TESTA38	i38|Trust in country's parliament
TESTA39	i39|Trust in the legal system
TESTA40	i40|Trust in politicians
REGIONxx	Region, xx
INWDD	Day of month of interview
INWMM	Month of interview
INWYR	Year of interview
INWSHH	Start of interview, hour
INWSMM	Start of interview, minute
INWEHH	End of interview, hour
INWEMM	End of interview, minute
SPLTADMA	Administration of split ballot and MTMM
SUPQDD	Day of month,supplementary questionnaire
SUPQMM	Month,supplementary questionnaire
SUPQYR	Year,supplementary questionnaire

File 2.

IDNO	Respondent's identification number
CNTRY	Country
RESCLQ	Clarification of questions
RESRELQ	Respondent reluctant to answer
RESBAB	Respondent tried to answer questions to the best of ability
RESUNDQ	Respondent understood the questions
PREINTF	Anyone present who interfered with the interview
PREWHP	Husband/wife/partner interfered with interview
PRESD	Son/daughter (inc. Step/adopted) interfered with interview
PREPPIL	Parent/parent in law interfered with interview
PREOREL	Other relative interfered with interview
PRENREL	Other non-relative interfered with interview
PREDK	Don't know who interfered with interview
PRENAP	Who interfered with interview not applicable
PRENA	Who interfered with interview no answer
INTLNG	Interview questionnaire language
INTNUM	Interviewer's identification number
ACOMINT	Additional comments on the interview, interviewer
SUPQAD1	Administration of supplementary questionnaire 1
SQNOTR	Reason why supplementary questionnaire not self completion
SUPQRTN	Supplementary questionnaire completed you present/returned later
SUPQAD2	Administration of supplementary questionnaire 2
FTFNOTR	Reason why supplementary questionnaire not face to face

File 3.

IDNO	Respondent's identification number
CNTRY	Country
TYPESAMP	Type of the sample
MULTHNUM	Identification number of household on address
TELNUM	Telephone number
INTNUM1	Interviewer-number of the interviewer who started the visits
TOTCINT1	Number of visits the original interviewer (intnum1) did
INTNUM2	Interviewer-number of the interviewer who started the re-issue
TOTCINT2	Number of visits the second interviewer (intnum2) did
INTNUM3	Interviewer-number of the third interviewer
TOTCINT3	Number of visits the third interviewer (intnum3) did
DATEV1	Date of the first visit
DATE2	Date of the second visit
DATE3	Date of the third visit
DATE4	Date of the fourth visit
DATE5	Date of the fifth visit
DATE6	Date of the sixth visit
DATE7	Date of the seventh visit
DATE8	Date of the eighth visit
DATE9	Date of the ninth visit
DATE10	Date of the tenth visit
MONV1	Month of the first visit
MONV2	Month of the second visit
MONV3	Month of the third visit
MONV4	Month of the fourth visit
MONV5	Month of the fifth visit
MONV6	Month of the sixth visit
MONV7	Month of the seventh visit
MONV8	Month of the eighth visit
MONV9	Month of the ninth visit
MONV10	Month of the tenth visit
DAYV1	Weekday of the first visit
DAYV2	Weekday of the second visit
DAYV3	Weekday of the third visit

DAYV4	Weekday of the fourth visit
DAYV5	Weekday of the fifth visit
DAYV6	Weekday of the sixth visit
DAYV7	Weekday of the seventh visit
DAYV8	Weekday of the eighth visit
DAYV9	Weekday of the ninth visit
DAYV10	Weekday of the tenth visit
HOURV1	Hour of the first visit
HOURV2	Hour of the second visit
HOURV3	Hour of the third visit
HOURV4	Hour of the fourth visit
HOURV5	Hour of the fifth visit
HOURV6	Hour of the sixth visit
HOURV7	Hour of the seventh visit
HOURV8	Hour of the eighth visit
HOURV9	Hour of the ninth visit
HOURV10	Hour of the tenth visit
MINV1	Minute of the first visit
MINV2	Minute of the second visit
MINV3	Minute of the third visit
MINV4	Minute of the fourth visit
MINV5	Minute of the fifth visit
MINV6	Minute of the sixth visit
MINV7	Minute of the seventh visit
MINV8	Minute of the eighth visit
MINV9	Minute of the ninth visit
MINV10	Minute of the tenth visit
MODEVA1	Mode of first visit
MODEVA2	Mode of the second visit
MODEVA3	Mode of the third visit
MODEVA4	Mode of the fourth visit
MODEVA5	Mode of the fifth visit
MODEVA6	Mode of the sixth visit
MODEVA7	Mode of the seventh visit
MODEVA8	Mode of the eighth visit
MODEVA9	Mode of the ninth visit
MODEVA10	Mode of the tenth visit
RESULA1	Result of first visit
RESULA2	Result of second visit
RESULA3	Result of third visit
RESULA4	Result of fourth visit
RESULA5	Result of fifth visit
RESULA6	Result of sixth visit
RESULA7	Result of seventh visit
RESULA8	Result of eighth visit
RESULA9	Result of ninth visit
RESULA10	Result of tenth visit
NUMHH	Number of households at the address
HHSELECT	Number of households selected at the address
NHHMEM	Number of members 15 years or more in household
OUTNIA1	Outcome when there was no interview (visit 1)
OUTNIA2	Outcome when there was no interview (visit 2)
OUTNIA3	Outcome when there was no interview (visit 3)
OUTNIA4	Outcome when there was no interview (visit 4)
OUTNIA5	Outcome when there was no interview (visit 5)
OUTNIA6	Outcome when there was no interview (visit 6)
OUTNIA7	Outcome when there was no interview (visit 7)
OUTNIA8	Outcome when there was no interview (visit 8)
OUTNIA9	Outcome when there was no interview (visit 9)
OUTNIA10	Outcome when there was no interview (visit 10)
REFVIS1	Number of visit at which a refusal occurred (1)
REFVIS2	Number of visit at which a refusal occurred (2)
REFVIS3	Number of visit at which a refusal occurred (3)

RERSA1_1	Reason for refusal (1_1)
RERSA1_2	Reason for refusal (1_2)
RERSA1_3	Reason for refusal (1_3)
RERSA1_4	Reason for refusal (1_4)
RERSA1_5	Reason for refusal (1_5)
RERSA2_1	Reason for refusal (2_1)
RERSA2_2	Reason for refusal (2_2)
RERSA2_3	Reason for refusal (2_3)
RERSA2_4	Reason for refusal (2_4)
RERSA2_5	Reason for refusal (2_5)
RERSA3_1	Reason for refusal (3_1)
RERSA3_2	Reason for refusal (3_2)
RERSA3_3	Reason for refusal (3_3)
RERSA3_4	Reason for refusal (3_4)
RERSA3_5	Reason for refusal (3_5)
COOP1	Estimation of the cooperation rate at refvis1
COOP2	Estimation of the cooperation rate at refvis2
COOP3	Estimation of the cooperation rate at refvis3
AGER	Estimation of the age of respondent, by interviewer
GENDERR	Gender of the respondent recorded by interviewer
OUTINELI	Outcome ineligible
TYPE	Type of house respondent lives in
PHYS	Physical state of the buildings and dwellings in the area
LITTER	How common is litter or rubbish lying around the immediate area
VANDA	How common is vandalism, graffiti or deliberate damage to property

G. Programmes for applying Data Protocol variable names, labels and categories

To assist the data producers, and ensure data to be as consistent and harmonised as possible, NSD offers SPSS and SAS programmes with the official ESS variable names, labels, categories and formats. The variable labels in the programmes include the question numbers to facilitate cross-references between the questionnaires and the variables. The programmes can be downloaded from Step 1 "Data definitions and programmes" on the Archive Web Site. Please apply the Data Protocol variable names, labels and categories to the data files before you submit them to the archive. The package of programmes includes the following syntax/dictionary files:

SPSS

ESS2ms.sps	Main and supplementary questionnaires, syntax
ESS2ms.sav	Main and supplementary questionnaires, dictionary, SPSS Windows 12.0
ESS2ms.por	Main and supplementary questionnaires, dictionary, SPSS portable file
ESS2i.sps	Interviewer's questionnaire, syntax
ESS2i.sav	Interviewer's questionnaire, dictionary, SPSS Windows 12.0
ESS2i.por	Interviewer's questionnaire, dictionary, SPSS portable file
ESS2cf.sps	Contact forms, syntax
ESS2cf.sav	Contact forms, dictionary, SPSS Windows 12.0
ESS2cf.por	Contact forms, dictionary, SPSS portable file
ESS2standards.sps	Value labels for international standards in ESS (see section D1).

SAS

ESS2ms.sas	Main and supplementary questionnaires, syntax
ESS2ms.sas7bdat	Main and supplementary questionnaires, dictionary, SAS Windows 8.2
ESS2ms.exp	Main and supplementary questionnaires, dictionary, SAS portable file (proc cport)
ESS2i.sas	Interviewer's questionnaire, syntax
ESS2i.sas7bdat	Interviewer's questionnaire, dictionary, SAS Windows 8.2
ESS2i.exp	Interviewer's questionnaire, dictionary, SAS portable file (proc cport)
ESS2cf.sas	Contact forms, syntax
ESS2cf.sas7bdat	Contact forms, SAS Windows 8.2
ESS2cf.exp	Contact forms, SAS portable file (proc cport)
ESSformats.sas	Definition of formats, all data files
ESS2standards.sas	Formats for international standards in ESS (see section D1).

Comment to ESS2standards.*: If the survey organisation does not have procedures for automatic checking of wild codes in the variables

CTZSHIPA "CITIZENSHIP"
CNTBRTHA "COUNTRY OF BIRTH"
LNGHOMA "LANGUAGE MOST OFTEN SPOKEN AT HOME: FIRST MENTIONED"
LNGHOMB "LANGUAGE MOST OFTEN SPOKEN AT HOME: SECOND MENTIONED"
FBRNCNT "COUNTRY OF BIRTH, FATHER"
MBRNCNT "COUNTRY OF BIRTH, MOTHER"
ISCOCO "OCCUPATION, ISCO88 (COM)"
NACER11 "INDUSTRY, NACE REV.1.1"
ISCOCOP "OCCUPATION PARTNER , ISCO88 (COM)"

the value labels/formats in ESS2standards.* can be added to File 1 to facilitate proof-reading (spotting empty labels in frequency tables).

H. National technical summary

The meta data documentation is an important part of the high quality data from the European Social Survey. The meta data documentation will need input from several groups of people engaged in the ESS.

The National co-ordinators will have a central role in providing National Technical Summaries for the meta data documentation. For those who have access to the fully lisenced Adobe Acrobat program, NSD has made an electronic form, National Technical Summary Form, for the NCs to download, fill in and deposit at the ESS Archive at NSD along with the other electronic deliverables. The electronic is available for download from the ESS Archive Web Site http://essdata.nsd.uib.no/ (See Step 1, Technical Summary deliverables).

NSD recommends the use of the electronic form, but for those who prefer to write their own report a Word document (National Technical Summary Elements) specifying the required information for the National technical summary report, is available for download from the ESS Archive Web Site.

Please save the National technical summary file as Ntech2004xx, where xx is the country code as specified in table E1 on page 14.
